

FOR IMMEDIATE RELEASE

TALENT TECHNOLOGY'S HIREDESK RECRUITMENT SOLUTION SELECTED BY J.J.F. MANAGEMENT SERVICES, INC.

HireDesk assists J.J.F. Management Services to become efficient and cost effective

Vancouver B.C., — December 18, 2007 — Talent Technology Corporation, an award-winning provider of recruitment technology, today announced the selection of its HireDesk applicant tracking system by J.J.F. Management Services, Inc. to deliver increased hiring efficiency and decreased recruiting costs.

J.J.F. Management Services operates several auto dealerships across Maryland, Pennsylvania, and Florida, selling over 20 different brands of vehicles. Potential candidates would come in to one of their locations looking for work or inquiring about a job. They would be asked to fill out an application and if that particular location did not have any openings the application would remain at the location and not be shared with any of the other local dealerships. This process was causing us to lose potential qualified candidates and have to spend additional money in placing additional ads. J.J.F. Management Services realized they needed a recruiting system that was independent of location, cost effective, customizable, and efficient.

“We found the HireDesk solution in an industry directory, called a few of their customers and received very positive reviews, so we decided to contact Talent Technology,” said Teresa Canterbury, HR Administrator from J.J.F. Management Services. “The people at Talent Technology were so amazing, helpful, and accommodating that it made the transition to using HireDesk very easy. Since using HireDesk, we have become much more efficient. We are no longer missing out on potential candidates; everyone is tracked directly in HireDesk. Each location is able to easily access information so there is no need to forward multiple copies of the applications/resumes to the hiring managers because we can see everything needed in the system in real time.”

Canterbury continued, “It’s a cost effective recruiting tool that keeps not only myself but all of my hiring managers organized. HireDesk is seamless, user friendly, and customizable. We use it all the time and just love it. It does everything the larger vendors do, but for a much better price. We also save money on advertising since we just need one ad to direct potential clients to our website instead of many ads for each location.”

The award-winning HireDesk on-demand applicant tracking system offers sophisticated candidate search, tracking and relationship management capabilities. The highly configurable solution automates and streamlines the steps involved in a company’s recruiting processes, from initial requisition approval, to resume processing, candidate assessment, interview, and placement. HireDesk is designed for rapid implementation and delivers companies the ability to place top quality candidates through a fast and efficient recruiting process.

“We are very pleased to be chosen by J.J.F. Management Services to increase the efficiency of their company. HireDesk will allow J.J.F. Management Services’ information to be accessed by all locations in real time so they can place more candidates in more jobs more effectively; thus supporting their growing business,” stated Robert Gordon, Chairman and COO, Talent Technology Corporation.

About J.J.F. Management Services, Inc.

Founded in 1966, Jack Fitzgerald purchased his first Auto dealership in North Bethesda, Maryland. Over the years we have grown because we take the time to listen to our customers. We offer our customers no-haggle discount posted prices on every new and used vehicle, a loaner car for when their vehicle is being repaired, and our Fitzgerald Buyer Protection plan that offers valuable coupons for a variety of the services that we provide. There are 12 Fitzgerald Auto Malls across Maryland, Pennsylvania, and Florida. If you would like more information about us please visit our website at www.FitzMall.com
