TALENT TECHNOLOGY CORPORATION ACQUIRES PEOPLEFILTER

Key Acquisition Accelerates Recruiting Software Company's Strong Organic Growth,
Broadens Product Portfolio and Strengthens Management Team

Vancouver B.C. and Arlington Heights, IL, — July 10, 2008 — Talent Technology Corporation, provider of award-winning recruiting software, today announced the acquisition of Profind Inc, providers of the PeopleFilter applicant tracking system.

“PeopleFilter’s mission of helping companies to source and select the best staff through recruiting software matches well with our own,” said Jade Bourelle, CEO, Talent Technology Corporation. “In addition, the recently launched AmplifyHR product is a great example of solid innovations from PeopleFilter and aligns with our strategic recruiting technology roadmap.”

Talent Technology was recently named the 17th fastest growing company in Canada as well as the fastest growing software company in Canada by Profit Magazine. The fifth acquisition for Talent Technology, this purchase reinforces the ongoing strategy of acquisitions as a key complement to the company’s rapid organic growth.

“PeopleFilter’s company history as a recruiting software firm co-founded by recruiters mirrors that of Talent Technology, as well as our approach to the market,” said Robert Gordon, Chairman of Talent Technology Corporation. “This latest acquisition helps accelerate Talent Technology’s strong internal growth with key additional management, staff and several blue-chip customers.”

“We’re tremendously excited to be joining forces with one of the fastest growing recruiting software companies,” said Kevin Harrison, President of PeopleFilter Technology. “As part of Talent Technology, we will be able to provide an enhanced roadmap with a broader portfolio of product and service offerings to PeopleFilter’s customers and ensure their existing investments are maximized.”

PeopleFilter staff will continue to be based in Arlington Heights, Illinois, and Kevin Harrison will join the Talent Technology management team.
