Talent Technology announces partnership with Sterling Testing Systems to offer pre-employment and background screening solutions

Vancouver BC –June 11, 2008 – Talent Technology Corporation, provider of award-winning recruiting and applicant tracking software, today announced that it has entered into a partnership with Sterling Testing Systems, leading provider of pre-employment, background checking and drug testing solutions. Sterling is a global provider of business intelligence, used to determine who is likely to be a productive new employee. Clients rely on Sterling for solutions notable for their speed, accuracy and flexibility — regardless of client, size, industry and geography.

"Through this partnership, Talent Technology can now offer its customers a variety of options for pre-employment screening. Tools that are critical in providing confidence throughout the hiring process.," said Praj Patel, Executive Vice President, Talent Technology. "A company's success lies largely on the people it hires. Ensuring you have a high quality team in place is an essential part of your company's strategy."

"We are pleased to partner with Talent Technology," said Paul Mladineo, Vice President of Strategic Development, Sterling Testing Systems. "We are dedicated to offering Talent Technology's customers a broad range of tools to hire the best candidates, quickly, accurately, and securely. With over 30 years of experience combined with leading web-based technology, Sterling Testing provides a proven set of services that provide employers with greater certainty."

Talent Technology and Sterling Testing are reviewing opportunities for closer product and service integration as part of the respective product roadmaps and will be announcing further details of specific product offerings as they are finalized. Greg Moran, Director, Industry Sales and Partnerships, Talent Technology, commented, "Both organizations share a commitment to offer products that address the real needs that customers have identified. We're confident that the combined solutions we will be able to offer do exactly that."
