TALENT TECHNOLOGY CORPORATION LAUNCHES RESUME MIRROR™ JOB POSTING

Vancouver B.C. — February 25, 2009 — Talent Technology Corporation announced today the official launch of Resume Mirror Job Posting, its latest Software-as-a-Service solution for corporate HR departments and recruiting/staffing service providers. This is the first of an integrated suite of job marketing modules, designed to enable organizations to effortlessly market their jobs and employment brand online via an integrated approach for attracting quality candidates.

“In today’s tough economy, corporate HR and recruiting organizations are focused on containing costs and maximizing recruiter productivity. Resume Mirror Job Posting helps address these challenges by providing the most advanced job posting functionality combined with fully integrated budget management and real time reporting”, said Jade Bouelle, CEO, Talent Technology Corporation. “It enables organizations to manage their costs and to ensure they make informed decisions about which job boards actually deliver the top candidates.”

Resume Mirror Job Posting can be integrated with enterprise recruiting systems such as Oracle and SAP as well as custom recruiting systems. It allows users to cut the administrative time spent on posting to multiple job boards by up to 90% and broadcast a job requisition within seconds to hundreds of leading international and niche job boards.

“Unlike other job posting offerings, Resume Mirror Job Posting provides centralized budget management capabilities that allow HR managers to allocate pre-defined job posting budgets down to the user or division level”, said Praj Patel, EVP, Talent Technology Corporation. “This is something that our users really like and need, especially in times of tight budget controls.”

Built on a next-generation platform, the fully integrated real time analytics and candidate source management also sets Resume Mirror Job Posting apart from other competitive offerings. It is easy to measure the effectiveness of job posting campaigns and to identify the boards that deliver the top candidates so customers can commit to the ones that yield the best result.

Resume Mirror Job Posting along with Resume Mirror Extraction Enterprise and Resume Mirror Search Enterprise are available directly from Talent Technology Corporation. To schedule a live demo of Talent Technology’s resume extraction, candidate resume search and match technology and our latest job posting product, visit:
