

FOR IMMEDIATE RELEASE

## **CAPS SOFTWARE SELECTS RESUME MIRROR TECHNOLOGY TO INCREASE CUSTOMERS RECRUITING RESULTS**

**Vancouver B.C., — November 12, 2003** — Talent Technology Corporation, an award-winning provider of recruitment technology, today announced that BBDP Inc., provider of the premier recruiting solution CAPS Software, has selected Resume Mirror's iREX resume processing technology to extend the capabilities of CAPS Candidate Creator™. With the enhanced functionality provided by Resume Mirror, CAPS Candidate Creator™ now enables recruiters to search qualified candidates faster, identify quality candidates more accurately and deliver top candidates to clients and hiring managers more rapidly while significantly cutting the administrative costs associated with creating candidate records.

Utilizing Resume Mirror's iREX technology, CAPS Candidate Creator™ now automatically imports contact information, employment history, titles and education directly into a recruiter's database directly from an electronic resume. With the CAPS Candidate Creator™ recruiters can reduce administrative resume data entry functions and focus more time on revenue generating activities at an affordable cost for small recruiting businesses.

"With Resume Mirror's resume processing technology integrated in our application, CAPS Candidate Creator™ can quickly convert our customers large resume pools into valuable databases of candidates and contacts that really impact recruiter productivity and revenue generation ability," stated John Demsher, President of BBDP Inc. "The technology was easy to implement and initial customer feedback has been that interview and placement activity are up across the board as a result of adding this new functionality."

"It's exciting to see partners like BBDP who have been able to pass on the business benefits of our resume processing components to their customers just as quickly as they were able to integrate our technology into their offering," stated Praj Patel, General Manager of Resume Mirror.

### **About BBDP Inc.**

*Since 1995, we've been a leading provider of technology solutions to the staffing industry. We offer consultation, procurement, installation, training and support to recruiting offices throughout the world. Our turn-key delivery and single provider capability make us the perfect partner for new and growing organizations. Our flagship product, CAPS Software, is used by some of the world's largest management and executive search firms, representing thousands of users. CAPS remains the only planner-centric system designed specifically for the professional recruiter.*
