

Rockefeller Streamlines Recruiting with Talemtry

The Rockefeller University uses Talemtry to help recruit the best applicants for each job. Talemtry gives the 70 research laboratories with 200 scientists, 350 post-graduate investigators, and more than 1,000 support staff an efficient application process to secure qualified applicants, while freeing staff to focus on value-added research and training activities.

“We chose Talemtry because it was the only validated solution that integrates with Oracle iRecruitment.”

Christopher McLeod

HRIS Manager

The Rockefeller University

Challenge

Reduce manual data entry, improve job seeker experience with a more efficient application process, and comply with the Office of Federal Contract Compliance Programs (OFCCP) regulations.

Solution

Talemtry reduces the time it takes to complete job applications, and lets recruiters input resumes received via e-mail or the Internet into Oracle iRecruitment with a mere click.

Results

Accurate, improved capture of applicant information in Oracle iRecruitment complies with OFCCP regulations and enables a significantly faster application process.
