

UHSEC Competes for Top Talent with Talemtry

University Health Systems of Eastern Carolina (UHSEC) is a regional health system covering 29 counties in eastern North Carolina. UHSEC needed a faster, simpler application process, so qualified candidates would be more encouraged to apply. The healthcare provider replaced its manual processes with Talemtry, smoothing the way for applicants and enabling UHSEC to quickly respond to and engage top talent.

“The application is the face of the organization. If you get frustrated with that you’re going to move on to applying at another hospital.... Talemtry has been a great, great, great solution.”

Beverly Davis

HR Analyst

University Health Systems of Eastern Carolina

Challenge

Improve candidate experience, ensuring the best candidates aren’t missed and making the recruiting team more effective and efficient.

Solution

Talemtry streamlines the application process with an easy to use career portal. Recruiters can tap a complete, accurate database and quickly identify and respond to top talent.

Results

Reduced application process from 45 minutes to 7 minutes, and eliminated 120 hours per week of data entry. UHSEC is more competitive, presenting a best-in-class face to potential candidates.
